U.S. ARMY

Logistics

At a Glance

Army Logistics includes those aspects of military operations that deal with: design and development; acquisition, storage, movement, distribution, maintenance, and disposition of materiel; acquisition or construction, maintenance, operation, and disposition of facilities; and acquisition or furnishing of services.

There are 3 basic branches of Logistics – Ordnance, Transportation, and Quartermaster

Logistics personnel make up approximately 24% of the Total Army Force (Active Duty, National Guard-ARNG, and Reserves-USR)

U.S. ARMY

Ordnance Corps

Mission

Provide munitions, maintenance, and EOD support to generate and maintain combat power and to provide protection to sustain land dominance for Large Scale Combat Operations (Army 2030) in Contested Environments.

Officer Areas of Concentrations (2)

- ✘ **89E** Explosive Ordnance Disposal
- ✘ **91A** Materiel Maintenance and Munitions Management

Warrant Officer Specialties (9)

- ✘ **890A** Ammunition
- ✘ **913A** Armament Systems Maintenance
- ✘ **914A** Allied Trades
- ✘ **915A** Automotive Maintenance
- ✘ **915E** Senior Ordnance Logistics Officer
- ✘ **919A** Engineer Equip Maintenance
- ✘ **948B** Electronic Systems Maintenance
- ✘ **948D** Electronic Missile Sys. Maint.
- ✘ **948E** Senior Electronics Maintenance

Enlisted Military Occupational Specialties (30)

89A	Ammunition Stock Control and Accounting Specialist	91X	Maintenance Supervisor
89B	Ammunition Specialist	91Z	Senior Maintenance Supervisor
89D	Explosive Ordnance Disposal Specialist	94A	Land Combat Electronic Missile System Repairer
91A	M1 Abrams Tank System Maintainer	94D	Air Traffic Control Equipment Repairer
91B	Wheeled Vehicle Mechanic	94E	Radio Equipment Repairer
91C	Utilities Equipment Repairer	94F	Computer Detection Systems Repairer
91D	Tactical Power Generation Specialist	94H	Test, Measurement, and Diag Equip (TMDE) Maint Spt Spc
91E	Allied Trades Specialist	94M	Radar Repairer
91F	Small Arms/Towed Artillery Repairer	94P	Multiple Launch Rocket System (MLRS) Repairer
91H	Tracked Vehicle Repairer	94R	Avionics and Survivability Equipment Repairer
91J	Quartermaster & Chemical Equipment Repairer	94S	Patriot System Repairer
91L	Construction Equipment Repairer	94T	Short Range Air Defense System Repairer
91M	Bradley Fighting Vehicle System Maintainer	94W	Electronic Maintenance Supervisor
91P	Self-Propelled Artillery Systems Maintainer	94Y	Automated Test Systems Operator/Maintainer
91S	Stryker Systems Maintainer	94Z	Senior Electronic Maintenance Supervisor

U.S. ARMY

Ordnance Corps

1629
Samuel Sharpe
appointed as Master
Gunner of Ordnance in
the Massachusetts Bay
Colony

July 1775
General Washington
appointed Ezekiel
Cheever to the
Commissary of Military
Stores to provide
Ordnance support,
including
manufacturing
weapons and power.

1812
Ordnance Corps
officially founded to
manage the
procurement, research,
and maintenance of
Ordnance materiel.

1861-1865 Civil War
The Ordnance Corps
built weapons for the
Army; furnished 90
million pounds of lead,
13 million pounds of
artillery projectiles, and
26 million pounds of
powder.

1914-1918 WW1
Established the
principle of forward
maintenance.

1941-1945
Establishment of the
first Bomb Disposal
Units; later renamed
Explosive Ordnance
Disposal.

Today
The Ordnance Corps
provides the Army with
maintenance,
munitions, and
Explosive Ordnance
Disposal.

1795 Federal armory at Springfield,
Massachusetts

1941 The Ordnance School at
Aberdeen Proving Ground, Maryland

2023 The Ordnance School at Fort
GA, VA

U.S. ARMY

91A Storyboard

INTELLIGENCES: Interpersonal, Logical-Mathematical

SKILLS: Maintenance and Munitions Management Officers are adaptive, agile, logical, and detail-oriented leaders that are directly responsible for building and maintaining the combat power of the Army. They drive readiness through the dynamic application leadership and resources to achieve effects. Leadership in materiel maintenance and ammunition management processes requires officers who use logic and analytical skills to solve problems and communicate solutions precisely. These officers must be support-focused, skilled at building relationships, and able to connect with others in a direct way so they can advise commanders and customers on sustainment operations in complex operating environments.

KNOWLEDGE: The Ordnance branch values officers with academic backgrounds from a wide variety of disciplines and majors. However, the domain-specific disciplines listed below provide officers with the expertise closely aligned with executing the military's system of logistics management.

➤ **RELEVANT EDUCATION:** Business Administration; Acquisition / Contract Management; Applied Sciences & Engineering; Automotive Engineering; Business Management; Chemistry; Computer Systems & Technology; Disaster Management; Distribution Management; Hazardous Materials Management; Industrial Engineering; Logistics Management; Mathematical Sciences; Mechanical Engineering; Operations Research; Supply Chain Management ; Forensic Sciences (not all inclusive).

➤ **RELEVANT TRAINING / EXPERIENCE:** Athletics (varsity), Cadet Troop Leading Time / Leader Development Time (CTLT / CLDT) with Army Ordnance unit; Academic Enrichment Program / Internship with major industries or academic institutions.

➤ **RELEVANT CERTIFICATIONS / ACCREDITATIONS:** Lean Six Sigma Certifications; Certified Professional in Supply Management; Certified Professional Logistician; Supply Chain Management Certificate; International Society of Logistics.

BEHAVIORS: (In addition to foundational)

- | | | | | |
|------------------------------|----------------------------|-----------------------|---------------------|--------------------------|
| ➤ AMBITION | ➤ CUSTOMER FOCUSED | ➤ EXPERT | ➤ MOTIVATING | ➤ PROBLEM SOLVING |
| ➤ COLLABORATIVE | ➤ DETAIL FOCUSED | ➤ FLEXIBLE | ➤ PERCEPTIVE | ➤ RESPONSIBLE |
| ➤ COMMITTED | ➤ DETERMINED/GRITTY | ➤ HARD WORKING | ➤ PRECISE | ➤ STRESS TOLERANT |
| ➤ CRITICALLY THINKING | ➤ DISCIPLINED | ➤ INITIATIVE | ➤ PROACTIVE | ➤ TEAM ORIENTED |

TALENT PRIORITIES:

- 1. PROJECT MANAGER:** Able to determine requirements, develop work processes, delegate responsibilities, and lead teams to desired outcomes.
- 2. PROBLEM SOLVER:** Able to choose between best practices and unorthodox approaches to reach a solution. Accomplishes the task.
- 3. LOGICAL / ANALYTICAL:** Uses reason and thinks in terms of cause and effect. Able to decompose and solve complex problems.
- 4. INNOVATIVE:** Creative, inquisitive, and insightful. Easily identifies new solutions and catalyzes change.
- 5. INTERPERSONAL:** Skilled in developing appropriate relationships. Able to connect with others to effect positive results.

U.S. ARMY

91A Maintenance Leadership

Units

- ✠ Forward Support Company
- ✠ Field Maintenance Company
- ✠ Support Maintenance Company
- ✠ Brigade Support Battalion
- ✠ Combat Sustainment Support Battalion

Positions

- ✠ Maintenance Control Officer
- ✠ Platoon Leader
- ✠ Company XO
- ✠ Staff Officer (S3, S4, SPO)

Provide maintenance and logistical support for all types of Army materiel. Serves in multifunctional positions at all levels of maintenance engaged in field maintenance of assigned equipment. As a staff officer, directs and coordinates staff functions related to maintenance and logistics activities of the command.

U.S. ARMY

91A Munition Leadership

Units

- ✠ Munition Company
- ✠ Ordnance Battalion
- ✠ Combat Sustainment Support Battalion

Positions

- ✠ Control Officer
- ✠ Platoon Leader
- ✠ Munition Company XO
- ✠ Liaison Officer (Host Nation Support)
- ✠ Staff Officer (S3, S4, SPO)

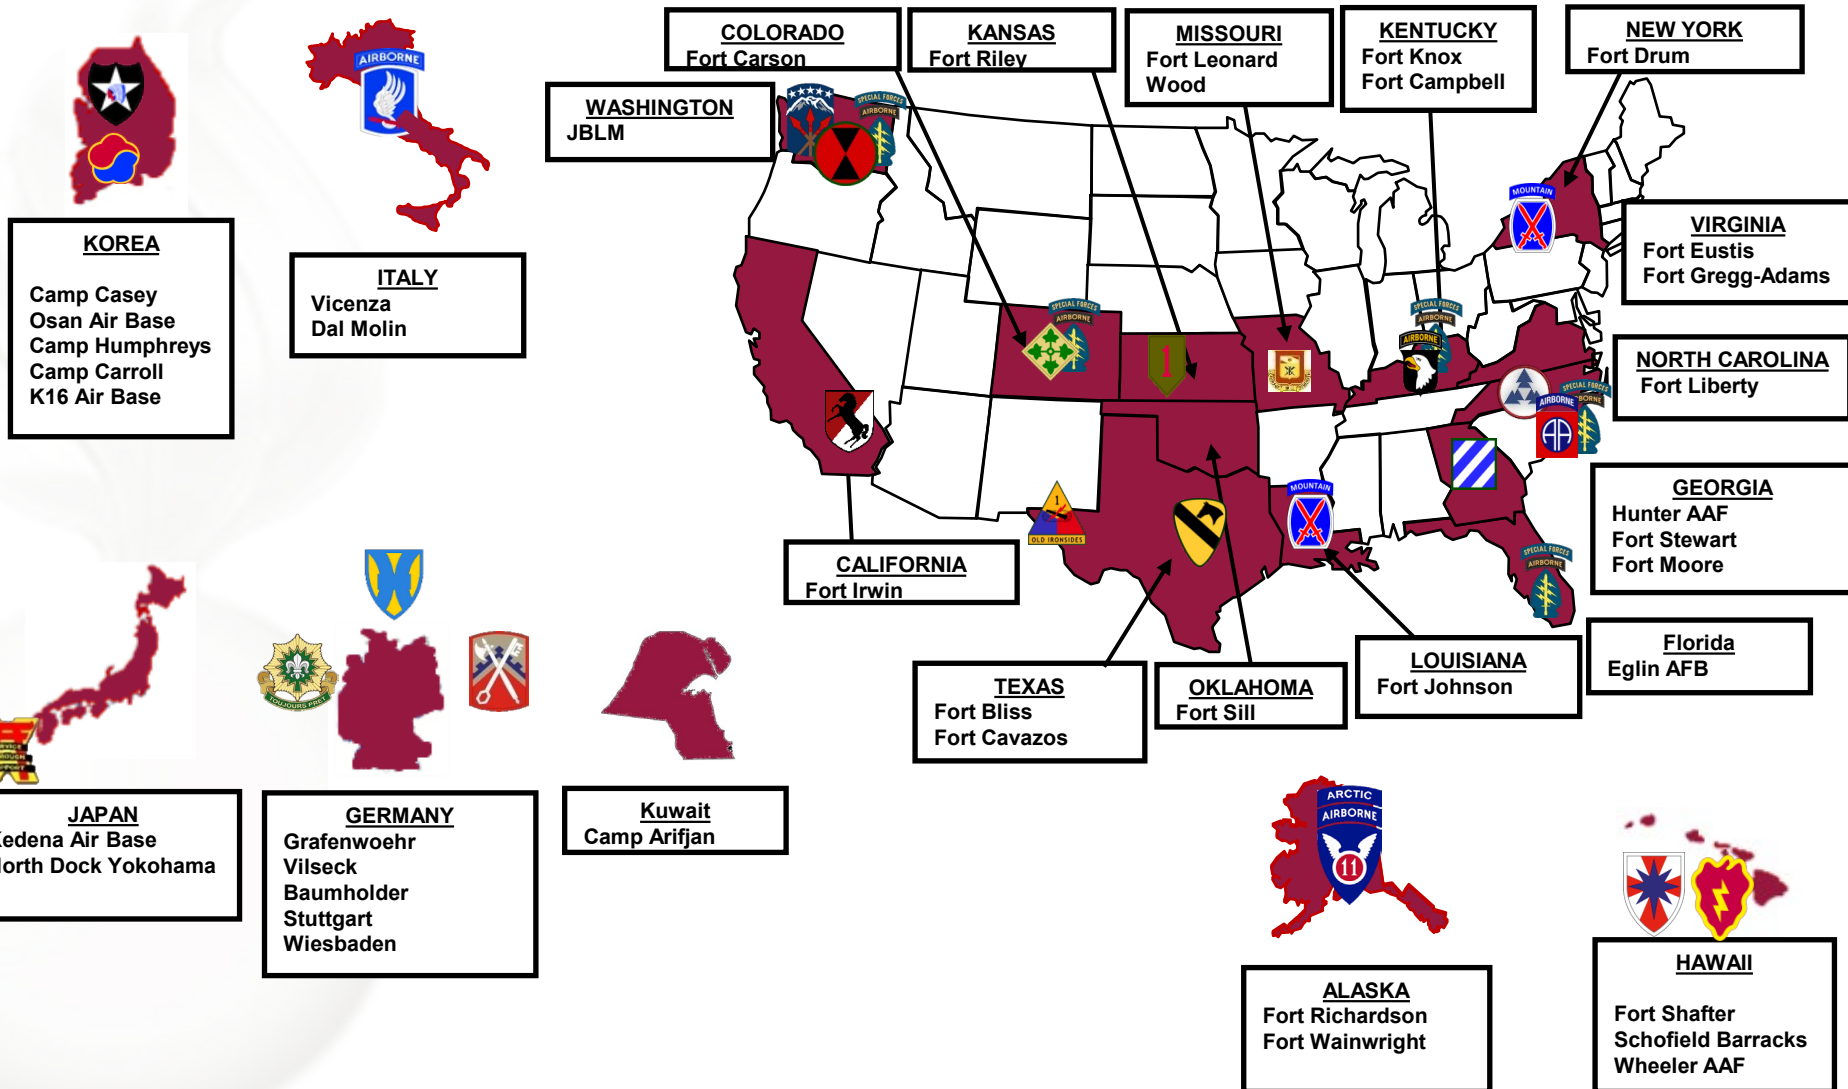

Engaged in direct and general support of conventional munitions. This includes supply, storage, transportation, maintenance, surveillance, inspection, stock control, safety of munitions, and related test and handling equipment. As a staff officer, directs and coordinates staff functions related to munition and logistics activities of the command.
